

Baldwin County Residents- At 1:00pm on Sunday, March 22, 2020, the Baldwin County Board of Commissioners declared a state of emergency in Baldwin County due to confirmed cases of the COVID-19 virus. This action was taken with the support of the Baldwin County Board of Health in coordination with the City of Milledgeville. We feel this will help protect the citizens of our county by reducing the spread of COVID-19.

The declaration includes provisions that prevent social gatherings of 10 or more people which includes gatherings such as church services, funerals, family reunions, and political gatherings, along with a curfew that will be imposed on non-essential travel from the hours of 10:00pm to 6:00am. While not prohibited at this time, Baldwin County (and the City of Milledgeville) strongly recommend that dining in restaurants where 10 or more diners are seated should be avoided.

This does not prevent businesses from operating with 10 or more employees. Work-related travel, along with emergency situations are exempted from this declaration. The Baldwin County Sheriff's Department and the Milledgeville Police Department will enforce the provisions of this emergency declaration.

We ask that all citizens of Baldwin County abide by this declaration.

Please note that the Baldwin County Courthouse will be closed on Monday (3/23) and Tuesday (3/24) of this week to employees and visitors. A decision will be made on Tuesday when citizens can make appointments with different offices.
